Press Release

EXPERT CRANE ANNOUNCES STACKER CRANE INSTALLATION AT ALRO STEEL

May 7, 2020 – Cleveland, Ohio – Expert Crane, an overhead crane manufacturing company located in Cleveland, Ohio with service locations across the United States, has manufactured and installed a new 3-ton capacity stacker crane at Alro Steel in Fort Wayne, Indiana.

The 3-ton capacity stacker crane was designed, manufactured, and installed by Expert Crane. The crane process involved over 500-man hours to complete. For installation, each of the individual crane pieces, such as the trolley, had to be delivered by trucks and unloaded piece by piece at the facility. The massive stacker crane parts were maneuvered, assembled, and set into place by the Expert Crane team.

“Our stacker crane installation at Alro Steel, is just one example of the wide range of custom design, manufacturing, and installation capabilities that Expert Crane has to offer,” stated Jim Doty, Owner & Founder of Expert Crane. “Our job does not stop after installation, as we extend crane service to our customers as well as crane inspection programs and preventative maintenance.”

Founded in 1977, Expert Crane is a leading manufacturer of overhead cranes and crane components. In addition to their complete line of DX, MX, and TX cranes, BX below the hook lifting devices, runways, and controls, Expert Crane offers 24-hour emergency service across the United States.
